# Bunger Steel

*Arizona's Premier Steel Building Manufacturer*

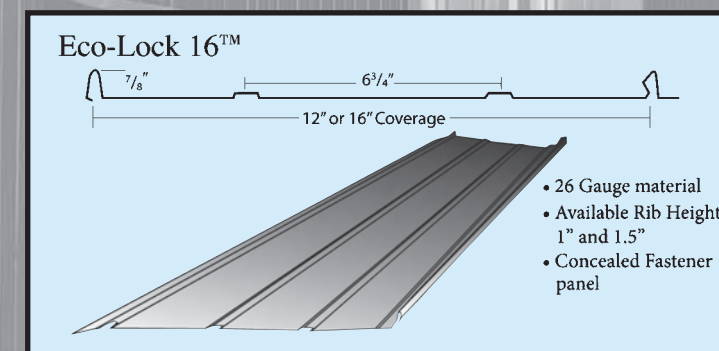

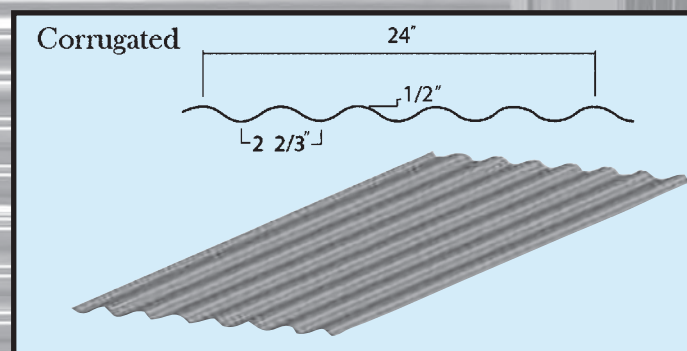

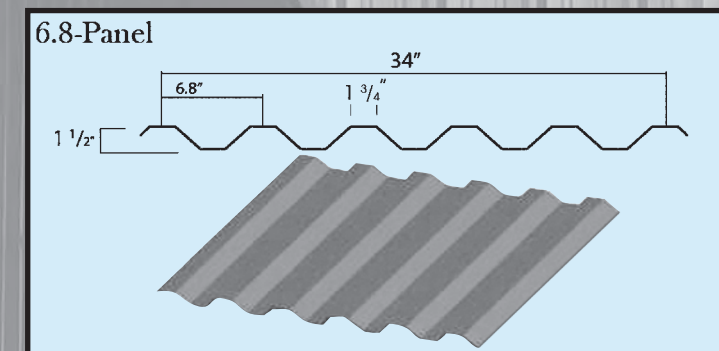

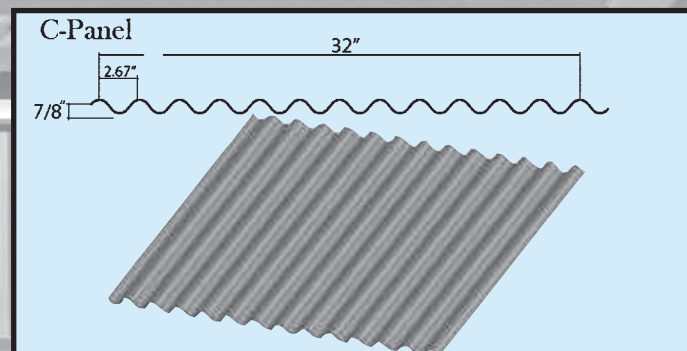

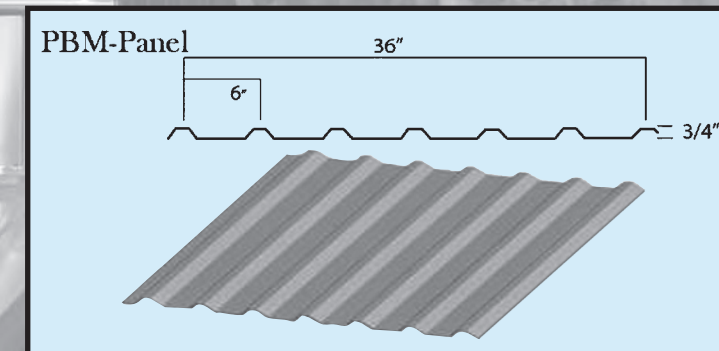

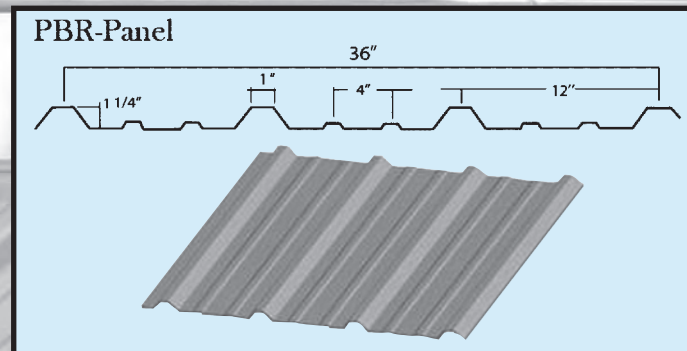

At Bunger Steel, we pride ourselves on setting the standard for quality metal building products and exceeding the expectations for services regardless of the size or complexity. Whether it is your corporate headquarters, a 200,000 sq. ft. warehouse or a backyard garage, your building speaks of the quality you demand and the work you do. Bunger Steel structures are built to last a lifetime, using solid, superior strength American steel that's fabricated right here in our own plant. Because we manufacture and construct your building, we can assure you of the highest degree of quality—every step of the way. We work hard to ensure that you receive the exact structure you want...one that conveys just the right message about your business or property.

Established over 30 years ago, Bunger Steel is a high quality, full service manufacturer of all kinds of steel buildings including Commercial, Industrial, Residential, Institutional, Agricultural, Airplane Hangars, Mini Storage, RV Storage, Churches...The list goes on. The best part of doing business with Bunger Steel is that you are always taking advantage of factory direct savings.

See our Bunger Steel Buildings Brochure, Buildings Sales Team or Website [www.bungersteel.com](http://www.bungersteel.com) for more information on Bunger Steel Buildings

# THE BENEFITS OF METAL ROOFING

## EVERYTHING YOU WANT YOUR PROJECT TO BE.

A BUNGER STEEL METAL ROOF IS A SMART ADDITION  
TO YOUR PROJECT FOR SO MANY REASONS

### BEAUTY.

With Bunger Steel roofs, you can choose from a wide variety of attractive designer colors. Your roof will look fresh and vibrant for decades.

### DURABILITY.

Metal roofs last much longer than either composition roofs or wooden shingles.

### WEATHER RESISTANCE.

Bunger Steel roofs offer superior protection from wind, hail and fire.

### LONGEVITY.

Bunger Steel offers limited paint warranties up to 35 years.

### ENERGY EFFICIENCY.

Because of their high-tech coatings, Bunger Steel roofs can help lower your air conditioning and heating bills.

### INSURANCE SAVINGS.

Insurance companies may offer discounts up to 35% for homes with metal roofs. Check with your agent.

Established in 1975, Bunger Steel is Arizona's only full service manufacturer of pre-engineered steel buildings. At Bunger Steel, we design and deliver complete steel building systems. This "single source" system enables us to produce a superior, quality-controlled product... while decreasing your cost.

Finally... A company where employees are professional and committed to meeting customer needs and desires in a fast, competent and considerate manner. It is these people who produce a product that is supported by years of research and development. Our product is produced in a professional manner from the initial estimate to the final delivery. Most important, all of our business is based on two major rules....

Integrity and Honesty....

**THE BUNGER STEEL WAY!**
